

Systems Group: Spring 2008 Masters and General Exams

To: All Faculty and Graduate Students

From: Shengli Zhou

I shall take care of the Systems Master's and General Examinations, which will take place on **January 17-18, 2008**. I would appreciate getting exams from the following people by **January 11, 2007**:

ECE301 – P. Luh (Introductions to Systems Theory)
ECE313 – K. Pattipati (Applied Probability and Stochastic Process)
ECE316 – P. Willett (Digital Signal Processing)
ECE317 – P. Willett (Adaptive Signal Processing)
ECE361 – S. Zhou (Communication Theory)
ECE362 – Y. Bar-Shalom (Estimation and Filter Theory)

Master's Exam: On Thursday, January 17, from 9AM to 2PM. Students will answer questions from the following five courses: ECE301, 313, 316, 362, either 361 or 317.

Students currently registered to take the exam:

General Exam: On Thursday, January 17, from 9AM to 1PM questions on ECE301, 313, 316, and 362. On Friday, January 18, from 9AM to Noon, questions from either ECE361 or ECE317, and two courses of the students' choices.

Students currently registered to take the exam:

: Chen Chen

: Xin Tian

...

Let me also make the following notes and admonitions:

1. I will schedule the room and notify the students at a later point.
2. Any students **not in the Systems Group but wishing to take exam questions from Systems Group courses** should contact me and should take the exams at the above times.
3. Any students intending to take exams should contact me as soon as convenient – **in particular, students wishing to take the General Exam should inform me as to their “optional” selections.**
4. There are some old exams available for studying. Please just take these and photocopy them, and don't abuse them. They are just there to help, and there is no guarantee that a future exam will look anything like a past one. See Tina.
