# Robotics Engineering

WORLD-CLASS EDUCATION, RESEARCH, AND INNOVATION

Our faculty members are on the technological cutting edge, conducting externally-funded research in exciting fields such as human-robot collaboration, motion planning, autonomous drones, machine learning, biological robots, and neuroengineering.

What is a degree worth?

- UConn is one of only three U.S. research-active universities to offer a major in Robotics Engineering
- Data from the Bureau of Labor Statistics pegs robotics engineering as seeing a nine percent growth in jobs from 2016 to 2026
- Salary.com reports an average salary for robotics engineers of about $103,000 a year

A WORLD OF APPLICATIONS

- Manufacturing
- Autonomous Vehicles
- Healthcare
- Logistics
- Safety, Security, and Rescue
- Personal Assistants
- Military

Challenging jobs ✓ ✓
Excellent salaries ✓
Personal satisfaction ✓
Rapid advancement ✓

Modern Curriculum,

Team-based Design,

State-of-the-Art Facilities,

World-Class Faculty,

Endless Possibilities…

Opportunities

- Co-op/Internships
- Honors program
- Sponsored design projects
- Undergraduate research
- Professional enrichment
- Study abroad/Eurotech
- Minors
- Graduate study
